Please send in a change of clothes/wellies suitable for outdoors and the weather that day.

## IMPETIGO

Please be aware that we have had a few cases of impetigo going around. Impetigo is a skin infection that's very contagious, but not usually serious. Anyone can get it, but it's more common in young children. With antibiotics, impetigo often gets better in a few days and children can come back to school after 48hrs.

Please check the symptoms on [www.nhs.uk/conditions/impetigo/](http://www.nhs.uk/conditions/impetigo/) so you know what to look out for.
