Briefly describe the book:

Alex Rider is only a schoolboy when he becomes an MI6 agent. He has to destroy the stormbreakers and their activator, but who is the villain in the midst of it all?

Discuss what you particularly liked about the book:

I liked how there is also a comic version, which still captures all of the adventure.

Mention any dislikes about the book:

I didn't like how some bits just made no sense at all.

Would you recommend this book, and if so, for whom?

Compare to other similar books you have read:

I would recommend this book children years 5 and 6. I can't think of any books it's similar to, but James Bond fans will probably love it.
