A Message from Mr Jeffries

Dear Parents/Carers,

Thank you to those who were able to complete our parent survey. The results are on the next page.

It is great to see so much positive feedback and where notes for improvement have been provided, we will work as a school to address these. We don't always get it right and when we don't, we will do our utmost to fix it.

The most significant disagree/strongly disagree is the 'school community lives by our school values' category with 7% feeling that this was not the case. School is a microcosm of the wider world and just like children will not always agree and get on, neither will adults in the communities in which we live; however if we can all remember kindness then we can become the change we would like to see. We introduced our Home School Agreement to help the whole school community understand that we all have a personal responsibility. If everyone can honestly say that they are doing their part, then peace, respect, dignity and compassion will win out, even when we don't agree. <https://www.st-petersoxon.co.uk/home-school-agreement/>

Recent times have been incredibly tough for everyone. The effects of Covid and the pressures this continues to place on families, the cost of living ever increasing, and worry about suffering around the world is all taking its toll. If we all pause for a moment and remember our school prayer, which the children wrote, perhaps we can be reminded of the values which makes us such a special school community.

Dear Lord,

We thank you for the life we live,

We thank you for the gifts you give.

Help us to love and serve others,

And care for the world around us.

May our helping hands give and receive,

As we step into each day,

With courage and hope.

Amen

I wish you all a peaceful weekend.

Jon Jeffries

Thank you to the children and parents who have alerted us to things they have seen on the internet which they are uncomfortable with. Jay, our 123ict technician, has the following advice based on the issues that were raised. Please use the form and hand into school if there is anything you would like Jay to investigate and give advice on.

If you see something online that you do not like (rude words for example) then always speak to your parents about it.

Your parents can then look into using some of the following to help:

Parental Control Software

For the small fee of £15 a year you can protect your children online and offline with Kaspersky Safe Kids.

- Block access to inappropriate or harmful content
 - Block access to age-inappropriate apps and websites using categories like Gambling, Violence, or Weapons
 - Limit app use by time & create a list of apps your child's need your permission to open
- Set screen time limits per child, per device
 - Set a permitted number of hours of screen time per day & block the device if the limit is reached
 - Stop devices being used during specific time slots, like when your child should be doing homework
- YouTube Safe Search
 - Monitor your child's YouTube searches to ensure their online habits are healthy
 - Block search requests against harmful adult topics like alcohol, tobacco & gambling
- Track your child's location with GPS

Visit kaspersky.co.uk/safe-kids for more information.

(Works with Windows, macOS, Android and iOS)

Games

Game content cannot be controlled / monitored with parental control software (with the exception that you can control the age rating for games they can play). However some games do have parental controls built-in and the option to turn off chat.

ROBLOX

You can turn off chat options, pick age visibility (13 and over or 13 and younger), add an account PIN code and set parental account restrictions.

1. Log in to the account
2. Click on the gear icon in the upper right corner of the page for Account Settings
3. Then click on Settings
4. Click on Privacy and select no one under "Who can chat with me in app?"
5. Hit Save

Roblox Parental Controls:

1. Click on the gear icon in the upper right corner of the page for Account Settings
2. Click on Privacy.
3. Review the options under Contact Settings and Other Settings. Select No one or Friends or enable Account Restrictions

You can also report behaviour to Roblox...

Reporting in-game:

1. Click on the Menu button, located at the upper-left corner of the screen (the Menu icon looks like three lines stacked on top of each other).
2. Click the flag icon located next to a player's name or click the Report tab at the top of the menu.
3. Complete the form.

Reporting on the website or mobile app:

1. Every player-created asset has a Report Abuse link that will send a report to Roblox's moderation system. In most cases this will be found in the bottom of the description box in red lettering or under the "..." menu in the upper right.

2. Complete the form.

MINECRAFT

You can set a child account that parents have control over. If your child is under 13 years old, they need your permission to create an Xbox Live account.

1. Java edition and in Nintendo Switch: use in-game controls
2. Bedrock edition: turn off chat in the platform-provided networks

Sadly there are no parental controls for Minecraft, you can only do the following if another player is being problematic:

- If you are having trouble on a server that you are running, Minecraft suggest researching one of the many anti-griefing mods and whitelisting your server so that only specific people are allowed to play.
- If you are having trouble on someone else's server, please contact that server's administrator or moderator team for assistance.

FORTNITE

1. Open the Settings menu in the top right of the main Fortnite page by selecting the three bars, then the cog icon.
2. Choose the Audio tab at the top of the screen.
3. You can adjust several audio features, including voice chat.
4. Turn the setting off.

Additional Online Tips

Passwords and other personal information

Talk with your child about the importance of keeping passwords and other personal information private – even from friends. Help your child get into the habit of creating unique passwords with a combination of numbers, letters, and special characters, and updating all passwords regularly.

Bullying

Unfortunately bullying can and does happen in games, despite some game's tools to block bullying text language whenever possible. Again, talk to your child about what to watch out for and teach them how to block and report offenders.

BE SMART ONLINE

S

SAFE

Keep your personal information safe. When chatting or posting online don't give away things like your full name, password or home address. Remember personal information can be seen in images and videos you share too. Keep them safe to keep yourself safe.

M

MEET

Meeting up with someone you only know online, even a friend of a friend, can be dangerous as this person is still a stranger. If someone you only know online ever asks you to meet up, for personal information or for photos/videos of you then tell an adult straight away and report them together on www.thinkuknow.co.uk

A

ACCEPTING

Think carefully before you click on or open something online (e.g. links, adverts, friend requests, photos) as you never know where they may lead to or they may contain viruses. Do not accept something if you are unsure of who the person is or what they've sent you.

R

RELIABLE

You cannot trust everything you see online as some things can be out of date, inaccurate or not entirely true. To find reliable information compare at least three different websites, check in books and talk to someone about what you have found.

T

TELL

Tell a trusted adult if something or someone ever makes you feel upset, worried or confused. This could be if you or someone you know is being bullied online. There are lots of people who will be able to help you like your teachers, parents, carers or contact Childline – 0800 11 11 or www.childline.org.uk

BE SMART WITH A HEART

Remember to always be smart with a heart by being kind and respectful to others online. Make the internet a better place by helping your friends if they are worried or upset by anything that happens online.
