

How tall will your cress seeds grow?

Have a look at your cress seeds each day and measure how tall they are.

Fill in the chart below and bring it back into school on Thursday next week (8th July). We are going to use this set of data in our Maths lesson on Thursday.

Don't forget to keep your cress seeds in a sunny spot and give them a bit of water each day!

<u>Day</u>	<u>Height of Cress</u>
